

## Precautions for Use

- Hypochlorous acid, quaternary ammonium salt, chlorine dioxide and other disinfectants are recommended.
- Avoid using strong corrosive disinfectants.
- Equipment working environment temperature and storage temperature are between 5-55°C.
- When spraying, the nozzle is recommended to be in horizontal direction.

Note: When spraying diagonally upwards for a long time, some water droplets will flow out from the drain hole at the bottom of the handle due to electrostatic adsorption, which is a normal phenomenon.

## Warranty

Item	Warranty Description	Warranty Period
Whole Unit	Whole Unit (Battery NOT included)	12 Months
Accessories	Battery, Charger, Power Cable	6 Months
