GLDI-507 QUAT DISINFECTANT CLEANER / DISINFECTANT

GLDI-507 is the ideal product to disinfect. clean, sanitize, and deodorize washable hard, non-porous surfaces such as floors, walls, fixtures, countertops, sinks, tubs & showers, toilets, urinals, waste receptacles and more. Kills 99.99% of viruses, bacteria, fungi, & mould when used according to directions below.

Directions for Use:

Insert pod into spray bottle. Fill with 769 to 946ml water. Gently shake/stir bottle until pod is dissolved. Apply solution to hard, non-porous surfaces until thoroughly wet. Agitate as required. To disinfect, surfaces must remain wet for 10 minutes. Allow to air dry. Change cloth, brush, sponge or towels frequently to avoid redeposition of soil and cross-contamination.

For spray-mop systems and buckets: add 1 pod per 946ml. Apply to surface and agitate as necessary to clean. Allow surface to remain wet for 10 minutes.

See product label for additional specialized cleaning instructions.

Saftey Information:

Food-contact surfaces require a thorough rinse with potable water prior to use. For use on hard surfaces that may come into contact with children at the mouthing stage of development such as davcare centres and schools, a potable water rinse is recommended. See label and SDS for additional information.
